THE
PLATFORM

INTRODUCTION

The latest and greatest adult-content project on Binance Smart Chain driven by the community. The Orgasm.finance platform will feature a staking protocol together with our own adult NFT Marketplace and very own minigame arena.

Orgasm

ABOUT US

\$ORGASM is hyper-deflationary utility token that can be spent on the Orgasm.finance ecosystem. The purpose of having our native token is to improve the efficiency of transactions between the community and our platform.

We want to be more than just another NSFW/18+ marketplace or streaming site for content creators. We welcome fresh ideas contributed by our community so that we can differentiate ourselves from other NSFW-based projects.

TOKENOMICS

Token Name: Orgasm.finance

Token Symbol: \$ORGASM

Network: Binance Smart Chain (BEP20)

Total Supply: 100,000,000

Initial Burn: 23,000,000 (23%)

DISTRIBUTION

- Initial Burn
- Marketing & Development
- Pinksale Allocation
- VC
- Staking Reward Pool
- PancakeSwap Liquidity

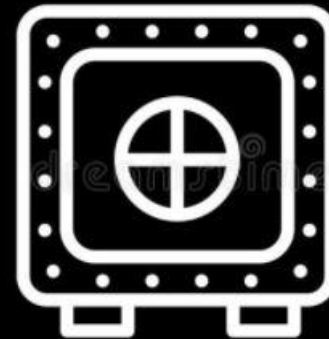

Orgasm

STAKING POOL

On top of the redistribution from Buy/Sell taxes, our community can increase their \$ORGASM bags by staking. Holding Orgasm.finance NFTs can give the stakers an APY boost of up to 25%.

15% (15,000,000) of the initial supply will be allocated to staking rewards with a starting daily reward pool of 50,000 \$ORGASM. The staking reward pools will be replenished with the Buy/Sell taxes and from the Marketing/Development wallet. The staking APR will be determined by the total amount staked.

NFT MARKETPLACE

Orgasm.finance will have its own NFT Marketplace platform. We have partnered with various adult content creators from around the world to launch our own unique collection of 18+ NFTs. New NFT collections will be added every 2 to 3 weeks depending on our partnership with the content creators. We are LGBTQ+-friendly and we will work with different content creators to provide a variety of adult content.

The NFTs can be minted with \$ORGASM tokens and there will be THREE different classes of NFTs: Common, Uncommon and Rare. These NFTs will give you a Staking Reward Boost in our Staking Pool. The Reward Boost is dependent on the rarity of the NFT.

MINIGAME ARENA

\$ORGASM holders can buy tickets with their tokens to play and stand to win attractive prizes. The \$ORGASM revenue collected from the minigames will be burned or be used to replenish the Staking Reward pool.

BURN MECHANISM

We have come up with an innovative daily burn feature whereby the Orgasm.finance community and holders can connect their wallet to the platform and declare the number of orgasms they have achieved for the day.

The total number of orgasms achieved by the community will determine the number of \$ORGASM tokens that will be burnt for the day.

Orgasm

ROADMAP

First Half of Q4 2021:

- Conception of Orgasm.finance
- Establish Social Media Presence
- Whitepaper and Website
- Forming Partnerships with Streaming Platforms

Second Half of Q4 2021
